

Nikhil Thapa

Full-Stack Developer

nikhilthapa.ts@gmail.com | +971 569405164 | Dubai, UAE
nikhilthapa.vercel.app

Summary

Experienced Full-Stack and Generative AI Developer with **6+ years** of experience building scalable web platforms and intelligent AI systems. Skilled in designing **RAG pipelines**, **AI agents**, and knowledge-driven applications, with a strong focus on integrating modern **LLM capabilities** with reliable backend engineering. Passionate about building practical, production-ready AI products that solve real-world problems.

Work Experience

Alternative Agency, Dubai Oct 2024 - Present

Frontend Developer

- Architected and developed a custom CMS powering official Nissan Middle East and Ford Naghi.
- Delivered high-performance product websites for Nissan Dubai, Saudi Arabia, Ghana, Bahrain, and Egypt (Patrol, Patrol Nismo, Z Nismo, Magnite, etc.), optimizing Core Web Vitals and responsive performance across markets.
- Architected and developed **enterprise RAG systems** leveraging **LangChain and LangGraph** to build multi-router, context-aware retrieval pipelines across internal knowledge bases. Optimized retrieval performance using **hybrid search, query expansion/HyDE, re-ranking, and contextual routing** to improve relevance and answer quality.
- Led development of a **Progressive Web App (PWA)** for Ford Naghi, increasing user re-engagement by **150%** and significantly improving mobile performance metrics.
- Built additional Nissan regional projects including Pathfinder VLP, Smart Guided Test Drive, and Nissan Parts Ghana.
- Collaborated with backend and DevOps teams to optimize asset delivery via AWS S3 and CloudFront CDN architecture.
- Vue 3, NuxtJS, **LangChain, LangGraph, LangSmith, Qdrant**, TypeScript, Tailwind, Firebase, S3, Cloudfront, Gsap

WPA, Dubai Dec 2022 - May 2024

Software Engineer

- Designed scalable data models and **MongoDB aggregation pipelines** to power analytics dashboards and feedback tracking systems.
- Built a custom CMS for events and news, reducing content update time by **40%**.
- Achieved **95% test coverage** across core modules using unit and integration testing strategies.
- Reduced page load times by **60%** through caching strategies, query optimization, and performance tuning.
- NextJS, TypeScript, React Query, MongoDB, NodeJS, Express, Vitest, AWS, PostgreSQL, Prisma, Redis, BullMQ

Batas Organization, Pokhara Jan 2020 - Nov 2022

Assistant IT Software Development Executive

- Developed internal ERP-style systems for inventory, CRM, and sales management in the automotive sector.
- Built automation scripts to eliminate manual data entry errors, improving operational efficiency.
- Implemented a ticketing system that reduced IT request resolution time by **50%**.
- NextJS, TypeScript, React Query, MongoDB, Express, BullMQ, OAuth, PostgreSQL, Redis

Projects

- **Nissan Magnite VLP - Saudi:** Vehicle landing page of the new Nissan Magnite for the Saudi market. `https://en.allnewmagnite.nissan-saudiarabia.com/`
- **Nissan Patrol Nismo VLP:** Vehicle landing page of the Nissan Patrol Nismo. `https://en.patrolnismo.nissan-dubai.com/`
- **Nissan Patrol VLP:** Vehicle landing page of the new Nissan Patrol. `https://en.allnewpatrol.nissan-dubai.com/`

Education

London Metropolitan University Aug 2019 - Nov 2022
BSc. Computing (Hons) ***London, United Kingdom***

Technical Skills

Languages: Javascript, TypeScript, Python, C, Lua
Libraries & Frameworks: NextJS, NuxtJS, FastAPI, NodeJS, ReactJS, VueJS, NestJS
AI Technologies: OpenAI, Gemini, LangChain, LangGraph, LangSmith, Qdrant, MCP
Other Technologies: Linux, Git, Docker, Vitest, Redis, PostgreSQL, MongoDB

Certifications

- **AWS and React: Creating Full-Stack Apps** - LinkedIn (March 2024)
- **GenAI with Python** | **Concept to Deployment Projects** - chaicode.com (January 11, 2025)
